Sorting :-

① Selection Sort :-

$i = 0, n$

$j = i+1, n$

- Find the smallest element and place it in its correct position
- The smallest element gets sorted 1st

② Bubble Sort :-

- it checks within a bubble, compares current and the current +1and moves the bigger one
- Largest one will be sorted 1st

$i = 1, n$

$j = 0, n-1-i$
